A Word from Pastor David...

Freedom is very precious to us. Our founding fathers established a new framework for government based on the principle that all people can live freely in this country. We have not achieved that goal but we have inspired people around the world to seek freedom. Our freedom in Christ is eternal and not subject to man's laws. Our task is to live in such a way that inspires people to want the freedom that Christ provides. Sunday we will see what that means.
